OUR LADY OF THE MOUNTAINS PARISH - PRELIMINARY CONCEPT

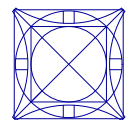

Whistler is an internationally acclaimed year-round resort visited by up to 3 million people annually. Built in a stunning natural location, Our Lady of the Mountains Catholic Church has the potential to put Whistler on the map as a spiritual destination for pilgrimages, retreats, and conferences. To make this transformational vision a reality, we plan to build a beautiful new church. The existing multipurpose building could then be used as a daycare and for overflow of the church during Christmas and Easter. This would help us support the community and provide additional sources of funding.

Mission of Our New Church Building

- To build a magnificent Church that will make Our Lady of the Mountains Parish a place of spiritual renewal.
- To create a destination retreat facility that will attract national and international Catholic conferences and other events.
- To utilize the existing structure as a first-class daycare
- To foster a welcoming community that can meet the spiritual needs of all who enter.
